Jensen, Chief Executive Officer; David Speikers, Board Vice President; Patrick Ritter, Chief Financial Officer.)

NORTH BEND, WA – Snoqualmie Valley Health announces that the North Bend Clinic is now open and accepting new patients, expanding convenient access to trusted, high-quality care for residents of the upper Snoqualmie Valley.

The new clinic brings comprehensive primary care to North Bend, along with a growing lineup of rotating specialty services. Pediatric care is available every Tuesday, Neurology every Monday, and additional specialties will be added in the coming months to meet the growing needs of the community.

“Our goal is to bring care closer to where people live and make it easier for families to get the services they need,” said Renée K Jensen, CEO. “The North Bend Clinic is an important step in expanding access and delivering exceptional care throughout the Valley.”

To celebrate the opening, Snoqualmie Valley Health hosted a grand opening event with community members, partners, and staff. Guests enjoyed refreshments, toured the new clinic, met providers, learned more about available services, and joined a ribbon-cutting ceremony to mark the start of patient care at the new location.

The North Bend Clinic is accepting new patients for primary care and specialty appointments. Patients can schedule [online](#) or by calling 425-831-2313.

**LIVE BOLDLY.
LIVE WELL.**
